- 5. Highlight the Module which you intend to "check out". Though the module names show 2007, they are forward compatible. Meaning, that they work with the latest versions of Carlson's software.
- 6. Use the *Checkout Length* drop-down to set the number of days for the commuted license. Then, click on *Commute Feature*. You may commute the license for 1 day, a week (7 days), or a month (30 days).

7. Once your license check out has been successful, the Monitor be updated, accordingly.

You may see which user is currently working with a network license, by clicking on the **View Users** button.
