

Carlson EOL/EOS Notification of Intent

Carlson EOL/EOS Notification: LMD Mining Product Lead-acid Battery Pack End-of-Life (EOL) End-of-Service (EOS) Notification of Intent.

EOL/EOS Notification Date: December 1st, 2023.

- LEAD ACID BATTERY PACK: Product code A-5914-0222.

Carlson will continue to offer RMA services on this product after the EOL/EOS date; however, service and repair will be limited where the obsolescence of parts makes repairs impossible.

Reason for Termination:

- Improve capacity and reduce weight over the lead acid variant.

Replacement Product: A-2206-0250 Lithium Ferro Phosphate Battery pack, 12.8v, 7.5 Ah, 96 Wh.

Compatible with legacy Quarryman, Void scanner or CALS that previously used A-5914-0222 Lead Acid. Note: **Not compatible with Current Carlson Lithium Variant Quarryman.**

EoS'd Product Part Numbers and Replacement Product Part Numbers.

Legacy Part Numbers	Replacement Part Numbers	Replacement Description
