

Carlson End Of Service Notification

Carlson EOS Notification:

EOS Notification for legacy MDL/Renishaw Rodded Boretrak®.

EOS Notification Date: February 1st, 2019

Dear Customer,

Carlson is announcing the phase out of hardware support and service of the following product:

- Legacy MDL/Renishaw Rodded Boretrak®: Product code 7000S.

Carlson will continue to offer calibration services on this product after the EOS date, however, service and repair will be limited where obsolescence of parts and certain test equipment makes repair impossible.

Carlson hopes that this announcement assists you in planning your future Boretrak requirements.

Reason for Termination:

- Obsolescence of electronic parts.
