

## **Introducing the Carlson Explorer 600+ Hatch and Cap**

The latest models of Carlson Explorer 600+ all come with a Cap attachment as standard. There is an additional model with a Hatch component that can be purchased to allow for more CF card slot space. This Hatch adds \$100 Retail. The Hatch provides enough room to hold the Enfora GSM 0110 CF card for cellular and internet connectivity. See the following photos to better understand these changes.

**Carlson Explorer 600+ Orange w/Cap – Top View (6000.801)**

Note: This photo shows the screws without a provided rubber stopper that maintains the IP-67 rating.

**Carlson Explorer 600+ Orange and Blue w/Cap – Front View. (6000.801 and 6000.811)**

Note: The Cap is always blue with orange trim.

**Carlson Explorer 600+ Blue w/Hatch – Front View (6000.670)**

**Carlson Explorer 600+ Blue w/Hatch – Side View (6000.670)**

**Carlson Explorer 600+ Orange w/Hatch – Front View (6000.661)**

**Carlson Explorer 600+ Orange w/Hatch – Side View (6000.661)**

**Carlson Hatch – Front View (6100.429)**

Note: The Hatch only come in blue with orange trim.

**Carlson Hatch – Side View (6100.429)**

Note: The Blue inserting piece seen in the top of the unit in this picture is a rubber stopper that is needed to maintain the IP-67 rating. Remove this stopper only to access the four connecting screws.

**Carlson Hatch – Top View (6100.429)**

Note: The circular indent on the left side is not functional in this Hatch model. There will be additional Hatch models available with other external attachments to be installed in this circular indentation.
